

ANTONISEN B.V. Quality & Environmental policy

ANTONISEN is committed to conducting business in a fair and reasonable manner – with integrity, responsibility, and the highest ethical standards. We place our stakeholders – including employees, customers, partners, suppliers, shareholders, authorities, society, and the environment – at the centre of our approach.

We are certified in accordance with ISO 9001 and ISO14001, internationally recognised standards for quality and environment management systems. These certifications reflect our commitment to structured processes, risk management, and continuous improvement in all aspects of quality and the environment.

Our commitment is reflected in our General Business Principles, which apply to all ANTONISEN employees (workers) and relevant stakeholders. It outlines the ethical principles and behavioural expectations that govern our internal operations and our external relationships. They are available upon request.
